

# NanoScrub™

## Removal of Coating Sealers

## NanoScrub™

- **Powerful Abrasive Cleaner**
- **Removes Ground in Dirt from Textured Surfaces**
- **Removes factory applied waxes & floor finishes**
- **Removes epoxy and cement grout haze**
- **Safe on polished marble**
- **Breakthrough NanoSTG™ Technology**

## Step 1: Pre-Wet Surface

## Step 2: Add neat NanoScrub

## Step 3: Agitate with Doodle Bug for small areas

**For large areas use a low rpm (175) scrubbing machine with a white nylon pad**

## Step 4: Check if coating is completely removed

## Step 5: Remove with wet/dry vac

## Step 6: Rinse with clean water and re-vac

## Final Result
